Legal Services Commission Manual

Legal Services Commission

The Stationery Office has taken over as publisher of the Legal Services Commission Manual from 2004.

This important publication is the only official guide to the new scheme for public funding in England & Wales. The four volumes provide guidance on statutory and other regulatory materials and are a required reference tool for all publicly funded solicitors.

The manual provides invaluable guidance on the Community Legal Service (CLS) and Criminal Defence Systems (CDS), the two schemes run by the Legal Services Commission. The Manual is divided into four volumes, enabling you to buy the information which relates directly to your area of work.

Volume 1 The Framework
contains statutory materials and information about matters such as financial eligibility and remuneration under the CDS and CLS schemes

Volume 2 Civil Contracting
includes the full terms of the General Civil Contracts and guidance on the provision of services governed by them.

Volume 3 The Funding Code
helps determine which individual cases may be funded by the Commission as part of the Community Legal Service.

Volume 4 Criminal Defence Service
includes guidance in relation to the General Criminal Contract and duty solicitor work.

In the summer of 2004 a new online service offers a new and flexible way to access the LSC Manual.

Subscribers can:

Browse
- Content is easily navigable via the menus and through the index.
- Clear cross-referencing and linking make browsing simple, even for first time users.

Search
- All online users will be able to conduct searches across all four volumes.

Print
- Subscribers will be able to print out whole sections, the forms or just selected commentary or legislation using the printer friendly versions.

The service also includes useful links to other websites and e-mail updates which alert subscribers to new material on the website. A CD-ROM option is also available.

To enable you to experience the website's unique features in advance, we have set up an online demonstration. This allows you to view examples of the site's content and test the print and search functionality. It will also give an idea of the site's clear and logical layout.
